Geology Curriculum Distribution
Of the Eleventh Class (Science)
2020 / 2019

Geology Curriculum Plan Distribution of the Eleventh Class (Science)

The First Semester – 2020 / 2019

Week	From Sun.	To. Thur.	Subject	No. of lessons	Chapter	Unit	
First	2019 /9/10	9/12	Earth Science (Geology)	1	Introduction	First The Earth & Universe 4 lessons	
			Origin of the Universe	1	Origin of The Universe		
Second	9/15	9/19	Galaxies & Star Cycle	1			
			Origin of the Solar System	1			
Third	9/22	9/26	Mineral Formation	1	Minerals	Second Earth Material (1) 7 lessons	
			Physical Properties of Minerals	1			
Fourth	9/29	10/3	Con. Physical Properties of Minerals	1			
			Chemical Properties of Minerals	1			
Fifth	10/6	10/10	Crystal Form of Minerals	2			
Sixth	10/13	10/17	Gemstones	1			
			Formation of Igneous Rocks	1	First Igneous Rocks		
Seventh	10/20	10/24	Composition of Igneous Rocks	2			
Eighth	10/27	10/31	Con. Composition of Igneous Rocks	1			Third Earth Material (2) 9 lessons
			Origin of Sedimentary Rocks	1	Second Sedimentary Rocks		
Ninth	11/3	11/7	Primary Structures of the Sedimentary Rocks	1			
			Environments & Uses of Sedimentary Rocks	1			
Tenth	11/10	11/14	Metamorphism	1	Third Metamorphic Rocks		
			Metamorphic Rocks Textures	1			
Eleventh	11/17	11/21	Role of Mass Wasting	1			
			Factors & Triggers of Mass Wasting	1			
Twelfth	11/24	11/28	Classification of Mass Wasting Processes	2	Mass Wasting.	Fourth Changes in landforms 4 lessons	
12 weeks	Total of Lessons			24
